Short profile of the Organisation: University of Coimbra (UC) is a reference in higher education and R&D in Portugal with 725 year old, due to the quality of the courses taught at its eight colleges and to the advances achieved in pure and applied research in various scientific domains and on technology related areas. UC pursues a policy of continuous improvement in several areas, ensuring high standards of teaching and research, as well as being an active participant in the development of the corporate world. The continuous technological development promoted by UC's different R&D units addresses the challenges involved in the design, operation and regulation of technologies, bringing together teachers from different scientific disciplines with a long experience in teaching, research, technology transfer and consultancy in different areas in the context of technology.
